**More Than 6
Million Pages**

were used to print all the copies of the Torrance Directory. If all these pages were placed end to end they would reach from Torrance all the way to Denver.

Nearly a Carload of Paper, over 10 tons, more than 20,000 pounds, the total of which represents the largest printing operation ever accomplished for the Torrance area.

More than Four Months of extensive research by a staff of competent fact finders, was necessary to compile the vast amount of data contained in the directory.

This Modern Version of City Directory Service came into being after a survey among businessmen, civic leaders, residents and tourists. The opinions and suggestions from the survey pointed the way for the Criss Cross Directory.

The Know-How to produce a Directory of this magnitude comes from vast experience in the directory field. Jim and Lee Luskey, your publishers, represent the third generation in the directory business. The widely circulated Criss Cross Directory is the result of this experience.

The Publishers pledge a continuing policy of fair dealing and never ceasing desire to improve their service to you.
